

Customize Your Eclipse Awning With Our Design Selections And Optional Accessories

THE Eclipse

Hardware To Match Your Décor

Eclipse offers four architecturally pleasing colors to either match or accentuate your home. Our pretreated powder-coated finishes are second to none in durability and appearance.

Drop Shade

Add even more solar protection while increasing your privacy with the Drop Shade. The option, available on most sizes, features an open mesh sun screen fabric in a variety of colors that extends down from the front bar over the width of the awning. The Drop Shade is self storing and can be motorized or manually operated.

Lunar Lighting Package

Rope style lighting that mounts to the underside of your awning provides a soft moonlight glow, perfect for evening entertaining at the touch of a button. These UL listed lights are safe for outdoor use and will not attract bugs.

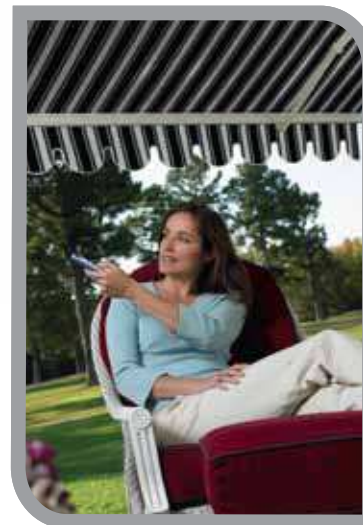

From Serene to Stunning, We Have The Fabric For You

Eclipse offers hundreds of long lasting, 100% acrylic fabrics from which to choose. Our covers are computer sewn with Tena thread allowing us to offer you an 8 year warranty on the complete fabric cover.

Solar Beam Heater

Extend your outdoor living season with our on-demand 1500 watt infrared heater that mounts to the underside of the unit's torsion bar or directly on the wall. With the wall mounted control unit, you can dial in the amount of heat you desire.

Electronic Accessories

Working in conjunction with motorized units, our world-class wireless components will increase your unit's functionality and effectiveness.

Wind Sensor: This accelerometer sensor attaches to the front bar which will retract the unit if it gets too windy – adding a level of safety.

Sun Sensor: This sensor typically mounts to an exterior wall and will automatically extend the awning once the preset sun level is attained.

RELAX AND ENJOY COOL COMFORTABLE SHADE

THE ULTIMATE SUNBLOCK®

THE Eclipse

RETRACTABLE AWNING

Uniquely Designed To Meet Your Needs

Every Eclipse awning is custom made and professionally installed to match your individual requirements. The Eclipse is available up to 40' wide with projections up to 13'. Eclipse components meet stringent ISO 9001 and TUV standards and are produced in the USA by skilled craftsmen.

Eclipse is proud to carry the prestigious Skin Cancer Foundation Seal of Recommendation on our shading systems that incorporate Sunbrella fabrics.

Add Instant Living Space While Protecting Your Family From The Sun's Harmful Rays

PRODUCT HIGHLIGHTS

- Widths from 5 to 40 feet
- Projections up to 13 feet
- Blocks up to 98% of the sun's harmful UV rays, while also providing significant cooling
- Choose from more than 200 solution dyed acrylic fabrics to best match your home or business
- Motorized or manual operation available
- Available in 4 beautiful "Qualicoat" powder coated frame finishes
- All frame components meet stringent ISO 9001 and TUV standards
- The strongest awning available in the industry
- Features Eclipse Awning Systems' Advanced Belt Technology® (ABT)

Advanced Belt Technology

While other systems have exposed cables or chains, Eclipse A.B.T. consists of 9 unique wound cables encased in a poly-carbon, UV resistant PVC coating. This unique, individually tested system guarantees you a long, worry-free life for your shading system.

Tension Transmission System

ABT	60,000 Cycles
CHAIN	8,000 Cycles
CABLE	5,000 Cycles

Make Your Life Easy-Motorize It!

To provide you with touch of a button operation, we offer a variety of UL listed optional tubular motors to operate your Eclipse awning. Ask your dealer which motor best suits your needs.

Matching Protective Hood

Because there is no seasonal take-down with the Eclipse, we offer an aluminum, powder-coated hood that provides fabric and motor protection from the elements. The optional hood is ideal for roof mounts or any mounting that does not have overhead protection.

Mount On Virtually Any Surface

The versatility of Eclipse allows for mounting on just about any surface:

- Wall or flat surface
- Underside of a soffit or eaves
- On roof surfaces using specially designed brackets with leak proof installation
