# VALANCE STYLE OPTIONS

The valance is located on the front of the awning which provides additional solar protection. The valance slides into a track on the front bar and typically measures 8 inches long. Depending on the model you select, you can choose from different valance cut styles.

STRAIGHT - If no braid is selected it's considered, "STRAIGHT HEM ONLY"

# BRAID COLOR OPTIONS

The braid is the finished edge along the bottom of the valance and is constructed of 100% acrylic fibers. Our seamstress will select the best braid color match based on the fabric you choose or you can choose from our 18 color options. The numbers listed below each color are the exact color match to the Sunbrella fabric color.

|                        |  |                       |  |
|------------------------|--|-----------------------|--|
