Pike
AWNING CO

FAMILY OWNED & OPERATED
PORTLAND, OREGON · SINCE 1891

The A.C. Pike Tent & Awning Factory, Portland, c. 1895

OUR STORY

135 years of Portland craftsmanship.

A Portland story that began at the water's edge, in 1891, when Portland was a growing port city and the Pacific Northwest was full of possibility.

From a storefront at 107 N. Third Street, A.C. Pike's shop hand-cut and stitched bags, tents, sails and covers for the pioneers, mariners and local customers shaping the region.

A tradition carried forward. Over more than 135 years, Pike has grown from a canvas shop serving a working waterfront into a custom shade and awning manufacturer for homes and businesses across the Northwest. The tools have changed; the essentials have not: skilled hands, careful attention to detail, creative problem-solving and a genuine commitment to the customer.

Family owned. Locally committed. Today, Pike is in its 3rd generation of Spearing Family ownership and remains Portland-based and family-operated, proud to employ local people and to build lasting relationships with customers, employees and trusted suppliers.

An early A.C. Pike trade label: "Tents, Awnings, Paulins, Covers, Etc."

Delivering rolls of striped awning canvas by horse-drawn wagon.

PIKE TODAY

Skilled hands. Local roots.

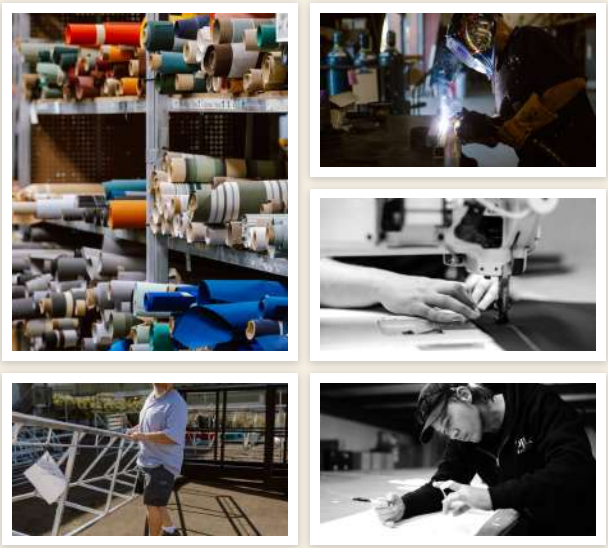

The people behind your project

Our team is a group of skilled craftspeople who are deeply dedicated to their trade, with **more than 200 years of combined experience** across our workforce. Designers, fabricators, sewers, welders and installers work side by side in our Portland shop, so every awning is engineered, built and installed by the same local team.

Local people, American-made parts

We employ local personnel and do our best to source American-made components, with an emphasis on local vendors, keeping quality high and our community strong.

Craftsmanship

Hand-cut, hand-sewn and hand-welded in our own shop.

Creativity

Custom designs shaped to your home, storefront or building.

Quality

Premium fabrics and frames built for Northwest weather.

Customer Service

From first sketch to final install, and for years after.
